**ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

Each exhibitor shall establish and maintain programs of adequate veterinary care that include:  
The availability of appropriate facilities, personnel, equipment, and services to comply with the provisions of this subchapter;  
and the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries, and the availability of emergency, weekend, and holiday care.

During the inspection it was noted that the Program of Veterinary Care documented that the primates will be TB tested on a yearly basis. However, no records could be found as to when they were tested earlier than 2/00. An appointment will need to be made with the attending vet in order to ensure that these primates are tested on a regular basis.  
To Be Corrected By: November 10, 2003

**HOUSING FACILITIES, GENERAL.**

Housing facilities for nonhuman primates must be designed and constructed so that they are structurally sound for the species of nonhuman primates housed in them. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering.

Three primates have recently been moved into this new facility. The primates are being housed within smaller enclosures in a large room. However, the drop ceiling had to be removed to accommodate for the large chain link enclosure. This now presents a situation that has insulation exposed along the entire ceiling of the primate room. The large chain link enclosure has been covered with sheets of clear plexiglass. However, the smaller enclosures are not covered. There is also the concern that if the primates did get out of their primary enclosures they would have direct access to the pink, fiberglass, insulation. This ceiling needs to be addressed.  
To Be Corrected By: Jan 30, 2004

[REDACTED] have recently moved from Fitchburg, MA to Webster, MA. This inspection was conducted to ensure that all standards and regulations are being met. At this time 2 non compliant items were noted. These items will need to be corrected.

Attached is the letter [REDACTED] gave to me as notification of the address change.
